DATA, KEEP DEALING

Data could shuffle playing cards as if they were isolinear chips removed by an intoxicated engineer. Will Riker often quipped, "Sometimes I wonder if he's stacking the deck."

If you have in play any Data or any Hollander, look at the top two and bottom two cards of your draw deck. Replace in any order, two on top and two on bottom.

THE WAKE OF THE BORG

The New Providence colony on Jouret IV was scooped up by the Borg in 2366, just as Federation and Romulan outposts along the Neutral Zone had been destroyed in 2364.

Plays on opponent's Neutral Zone Region mission if they seeded 3 or more. End of opponent's next turn, all non-ships, facilities, and personnel there are returned to hand.
